Professional Experience

Software Test Engineer, ARTLab (AIX APAR Regression Test Lab)

IBM – Austin, TX

1998 - 2001

- Prepared regression tests with system updates, eliminating potential customer problems and enhancing product quality in a timely fashion.
- Determined product deficiencies, with opened defects, and working closely with developers to recreate and fix the product deficiencies.
- Developed and enhanced testing programs that address such areas as regression testing, rerunning tests (due to errors), stress testing, and usability, which substantially decreased software product deficiencies..
- Collaborated with team members to maintain process documents and quality records in the Department Operating Manual for technical accuracy and compliance.

Technical Support Specialist, AIX Remote Technical Support

IBM – Austin, TX

2001 - 2015

- Managed and corrected customers' technical problems in a timely manner
- Created quality knowledge content through numerous written technical documents to supplement phone support to customers.
- Exceeded management's goals (in terms of support center metrics).
- Specialized as the team's technical focal point and intermediary for developers and customers.

Software Test Specialist, ISST (Integrated Software Systems Test) at IBM

CTG – Austin, TX

2015

- Ensured that the operating system, programs and hardware technologies functioned correctly through detailed analysis, problem determination, and collaborating with developers.
- Reduced exposure of software product deficiencies to customers.
- Implemented defect tracking system tools to monitor technical problems, and verify their corresponding fixes to developers.
- Assisted in resolving operating system problems, program malfunctions, and hardware/software configuration issues.

Benefit Services Representative

The Boon Group – Austin, TX

2016 - Present

- Sharing knowledge of employee benefits and insurance products within a customer service environment.
- Developing research and problem resolution skills.
- Implementing strong verbal and written interpersonal skills.
